

Unique Perspectives on Quality and Inclusive Science Education for All

Moderator – Carol Valenta

Former Chief Scientific Officer, Saint Louis Science Center, USA

Miha Kos

CEO, Ustanova Hisa Eksperimentov (House of Experiments)

Slovenia

Charlie Trautman

Director Emeritus, Sciencenter, Ithaca, New York
USA

Paloma Salgado-Tonda

Exhibit Development Director, Interactive Museum of Economy, MIDE

Mexico

John Falk

Director, Institute for Learning Innovation
USA

Puleng Tsie

Manager: Sci-Enza, University of Pretoria

South Africa

Kiyoshi Furusawa

Postdoctoral Fellow/Science Communicator,
Hokkaido University

Japan

Science Centers and Sustainable Development Goal 4 – “. . .achieving inclusive and quality education for all”

Globally there have been continuing advances toward universal primary education. Yet for children in poverty and in areas facing crises, disparity remains. Science centers are demonstrating unique responses to meet local challenges and supporting the scientific literacy necessary for global sustainability.

Speakers in this session will offer strategies, case studies and provocative thoughts toward addressing this goal.
