Challenges

South China Morning Post CHINA HK ASIA WORLD COMMENT BUSINESS TECH LIFE CULTURE SPORT WEEK IN ASIA NOW READING 1 SHARE Letters to the Editor, September 28, 2016 Carbon dioxide has beneficial role on earth I refer to the letter by Lee Sai-ming, senior scientific onficer of the Hong Kong Observatory ("There is crearly a significant warming trend", September 16). The temperature record upse 1865 based on the Observatory's headquarter, station, in spite of the wellknown urban hant stand effect, has failed to show a clearcut warming Two bing pauses in temperature rise can be seen from the record. The most recent pause is from 1998 to 2015 (17

years) followed by an even longer pause from 1966 to 1998
